What is this product?

Type: Shares of a Sub-Fund of Lyxor Index Fund, a SICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: The investment objective of the Sub-Fund is to generate a return linked to money market rates. The Sub-Fund is benchmarked with the €STR (Euro Short-Term Rate) compounded rate ("Benchmark Index"). The Sub-Fund is actively managed by investing in a diversified portfolio of financial instruments within a strict risk and liquidity control environment. The majority of the Sub-Fund's investment or exposure are linked to the Benchmark Index. The Sub-Fund's investment strategy is linked to the Benchmark Index, any deviation from the Benchmark Index is limited.

The €STR reflects the wholesale euro unsecured overnight borrowing costs of banks located in the euro area. €STR uses transaction data from daily currency exchange reports produced by the 52 largest banks in the euro area. It is the average interest rate on loans made during the day.

The daily compounded €STR is calculated and published by the European Central Bank. The €STR is published on each business day based on transactions conducted and settled on the previous business day (the reporting date "T") with a maturity date of T+1 which are deemed to have been executed at arm's length and thus reflect market rates in an unbiased way.

The Sub-Fund does not benefit from any implicit or explicit guarantee, neither from a swap counterparty nor from any entity acting as distributor of the Sub-Fund. The €STR reference rate may be negative, which could result in a negative performance of the Sub-Fund.

Updated composition of the Sub-Fund holdings is available on www.amundiETF.com. In addition, the indicative net asset value is published on the Reuters and Bloomberg pages of the Sub-Fund, and might also be mentioned on the websites of the stock exchanges where the Sub-Fund is listed.

Intended Retail Investor: This product is intended for investors, with an average knowledge of and some experience of investing in funds, and who are prepared to take on a high level of risk to their original capital.

Redemption and Dealing: Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Lyxor Index Fund prospectus.

Distribution Policy: As this is a non-distributing share class, investment income is reinvested.

More Information: You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Asset Management at 91-93 boulevard Pasteur, 75015 Paris, France. The Net Asset Value of the Sub-Fund is available on www.amundi.lu.

Depository: Societe Generale Luxembourg.

What are the risks and what could I get in return?

RISK INDICATOR

Lower Risk

Higher Risk

The risk indicator assumes you keep the product for 1 year.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Lyxor Index Fund prospectus.

What happens if Amundi Asset Management is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of Lyxor Index Fund. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested.
