What is this product?

Type: Shares of a Sub-Fund of Amundi Index Solutions, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: This Sub-Fund is passively managed.

The objective of this Sub-Fund is to track the performance of iBoxx MSCI ESG EUR High Yield Corporates TCA Index, and to minimize the tracking error between the net asset value of the Sub-Fund and the performance of the Index. The Sub-Fund aims to achieve a level of tracking error of the Sub-Fund and its index that will not normally exceed 1%.

The Index is a Total Return Index : the coupons paid by the index constituents are included in the index return.

iBoxx MSCI ESG EUR High Yield Corporates TCA Index is a bond index representative of euro-denominated BB/B rated bonds issued by corporate issuers that follows the rules of the iBoxx EUR High Yield TCA Index (the "Parent Index") and applies ESG criteria for security eligibility.

More information about the composition of the index and its operating rules are available in the prospectus and at: markit.com

The Index value is available via Bloomberg (IBXXLHYT).

The exposure to the Index will be achieved through a Direct Replication, mainly by making direct investments in transferable securities and/or other eligible assets representing the Index constituents in a proportion extremely close to their proportion in the index. The Sub-Fund intends to implement a sampled replication model in order to track the performance of the Index and it is therefore not expected that the Sub-Fund will hold each and every

underlying component of the Index at all times or hold them in the same proportion as their weightings in the Index. The Sub-Fund may also hold some securities which are not underlying components of the Index.

The Investment Manager will be able to use derivatives in order to deal with inflows and outflows and also if it allows a better exposition to an Index constituent. In order to generate additional income to offset its costs, the Sub-Fund may also enter into securities lending operations.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period and who are prepared to take on a high level of risk to their original capital.

Redemption and Dealing: The Sub-Fund's shares are listed and traded on one or more stock exchanges. In normal circumstances, you may deal in shares during the trading hours of the stock exchanges. Only authorised participants (e.g., selected financial institutions) may deal in shares directly with the Sub-Fund on the primary market. Further details are provided in the Amundi Index Solutions prospectus.

Distribution policy: The Fund's amounts available for distribution (if any) will be distributed.

More Information: You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Luxembourg S.A. at 5, allée Scheffer 2520 Luxembourg, Luxembourg.

The Net Asset Value of the Sub-Fund is available on www.amundi.lu.

Depository: CACEIS Bank, Luxembourg Branch.

What happens if Amundi Luxembourg S.A. is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of Amundi Index Solutions. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.
