The Fund's objective is to replicate, both upwards and downwards, the performance of the MSCI Emerging Markets Net Total Return index (the "Benchmark"), denominated in US dollar (USD) and representative of large- and mid-cap companies in all emerging countries, while minimising the tracking error between the Fund's performance and that of the Benchmark (the "Tracking Error").
The expected Tracking Error under normal market conditions is indicated in the Fund's prospectus.

The updated composition of the portfolio of securities held by the Fund is stated on the website amundietf.com.
