## What is this product?

**Type:** Shares of a Sub-Fund of MULTI UNITS LUXEMBOURG, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

**Term:** The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

**Objectives:** The Sub-Fund is an index-tracking UCITS passively managed.

The investment objective of the Sub-Fund is to reflect both the upward and downward evolution of the Solactive USD Daily (x7) Steepener 2-10 Index (the "**Benchmark Index**") denominated in USD, representative of the performance of a long position in 2Y US Treasury Note Futures (2-year contract) and a short position in the Ultra 10Y US Treasury Note Futures (10-year contract) while minimizing the volatility of the difference between the return of the Fund and the return of the Benchmark Index (the "**Tracking Error**").

The anticipated level of Tracking Error in normal market conditions is indicated in the Prospectus.

The strategy that the Benchmark Index aims to replicate is commonly referred to as a steepening strategy as it benefits from a steepening of the US interest rate curve. The Benchmark Index is representative of the performance of a long position in 2Y US Treasury Note Futures (2-year contract) and a short position in the Ultra 10Y US Treasury Note Futures (10-year contract). As a result, the Benchmark Index should benefit from an increase of the difference between the 10-year US yield and the 2-year US yield. On the contrary in the case of a decrease of the difference between the 10-year US yield and the 2-year US yield the Benchmark Index should decrease. In order to ensure the replicability of the Benchmark Index which the Sub-Fund reflects, the Benchmark Index methodology takes into account factors such as, but not limited to, funding costs.

The Benchmark Index is a net total return index. A net total return index calculates the performance of the index constituents on the basis that any coupons are included in the index returns after withholding tax retention.

Additional information about the Benchmark Index can be found at [www.solactive.de](http://www.solactive.de).

The Sub-Fund seeks to achieve its objective via indirect replication by entering into an over-the-counter swap contract (financial derivative instrument, the "**FDI**"). The Sub-Fund may also invest in a diversified portfolio of international bonds, whose performance will be exchanged against the performance of the benchmark Index via the FDI.

In order to hedge against the Sterling Pound (GBP) currency risk, the Sub-Fund uses a Monthly hedging strategy which aims at reducing the impact of a change in the Sub-Fund currency against the currency of the Benchmark Index constituents.

Updated composition of the Sub-Fund holdings is available on [www.amundiETF.com](http://www.amundiETF.com).

In addition, the indicative net asset value is published on the Reuters and Bloomberg pages of the Sub-Fund, and might also be mentioned on the websites of the stock exchanges where the Sub-Fund is listed.

The Sub-Fund's shares are listed and traded on one or more stock exchanges. In normal circumstances, you may deal in shares during the trading hours of the stock exchanges, provided that the Market Makers can maintain market liquidity. Only authorized participants (e.g. selected financial institutions) may deal in shares directly with the Sub-Fund on the primary market. Further details are provided in the prospectus of the UCITS.

**Intended Retail Investor:** This product is intended for investors, with an advanced knowledge of and experience of investing in funds, seeking to increase the value of their investment over the recommended holding period with the ability to bear losses up to the amount invested.

**Redemption and Dealing:** The Sub-Fund's shares are listed and traded on one or more stock exchanges. In normal circumstances, you may deal in shares during the trading hours of the stock exchanges. Only authorised participants (e.g., selected financial institutions) may deal in shares directly with the Sub-Fund on the primary market. Further details are provided in the MULTI UNITS LUXEMBOURG prospectus.

**Distribution policy:** As this is a non-distributing share class, investment income is reinvested. the accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

\* Secondary Market: because the Sub-Fund is an ETF, Investors who are not Authorized Participants will generally only be able to buy or sell shares on the secondary market. Accordingly, investors will pay brokerage fees and/or transaction costs in connection with their dealings on stock exchange(s). These brokerage fees and/or transaction costs are not charged by, or payable to, the Sub-Fund nor the Management Company but to the investor own intermediary. In addition, the investors may also bear the costs of "bid-ask" spreads; meaning the difference between the prices at which shares can be bought and sold.

Primary Market: Authorized Participants dealing directly with the Fund will pay related primary market transaction costs.

## How long should I hold it and can I take money out early?

**Recommended holding period:** 3 years is based on our assessment of the risk and reward characteristics and costs of the Sub-Fund.

This product is designed for medium-term investment; you should be prepared to stay invested for at least 3 years. You can redeem your investment at any time, or hold the investment longer.

**Order Schedule:** Details of dealing frequency can be found under "What is this product?". Please see the "What are the costs?" section for details of any exit fees.

On the Primary Market the Company may:

- Suspend the redemption of shares, if exceptional circumstances so require, considering the interests of investors.
- Manage liquidity risks, by (i) limiting how many shares are redeemed in a short amount of time if redemption requests reach a predefined threshold beyond which such requests can no longer be executed in the best interests of all investors ("Gates"), and (ii) applying anti-dilution tools (anti-dilution levy or partial or full swing pricing) to mitigate material dilution for remaining investors.

On the Secondary Market, investors will generally be able to sell their shares on the relevant stock exchange. Further details can be found in the Prospectus.
