A. Comparison between the Absorbed Sub-Fund and the Receiving Sub-Fund and impact on shareholders

The Absorbed Sub-Fund and the Receiving Sub-Fund both are compartments of Luxembourg undertakings for collective investment in transferable securities (UCITS) that exist under the form of a public limited company qualifying as an investment company with variable capital. Accordingly, shareholders in the Absorbed Sub-Fund and the Receiving Sub-Fund should generally benefit from similar investor protection and shareholders rights.

As further detailed in Appendix I, although they do not seek to track the same index, the Absorbed Sub-Fund and the Receiving Sub-Fund share similar key features, including target asset class and geographic exposure, but differ in some respect notably in terms of management process, service providers and exposure. In particular, regarding the latter, while the Absorbed Sub-Fund offers an indirect exposure to mid-cap securities traded in the major stock markets of developed European countries, the Receiving Sub-Fund offers a direct exposure to small-cap securities traded in the major stock markets of developed European countries, where companies are selected based on an Environmental, Social and Governance (ESG) approach and weighted to take into consideration the opportunities and risks associated with the climate transition to meet the EU Climate Transition Benchmark (EU CTB) regulation minimum requirements.

Shareholders in the Absorbed Sub-Fund should benefit on the longer term from greater levels of operational efficiency and the economies of scale this Merger should allow to achieve, while getting exposure to the same target asset class(es).

	Absorbed Sub-Fund	Receiving Sub-Fund
Index	MSCI Europe Mid Cap Net Total Return Index	MSCI Europe Small Cap ESG Broad CTB Select Index
Investment Objective	The Absorbed Sub-Fund is a passively managed, index-tracking UCITS. The investment objective of the Absorbed Sub-Fund is to provide investors with a return that tracks the performance of the MSCI Europe Mid Cap Net Total Return Index (the "Index"). There is no guarantee that the investment objective of this Absorbed Sub-Fund can be realised. The expected Tracking Error under normal market conditions is up to 1%.	The objective of this Receiving Sub-Fund is to track the performance of MSCI Europe Small Cap ESG Broad CTB Select Index, and to minimize the tracking error between the net asset value of the Receiving Sub-Fund and the performance of the Index. The Receiving Sub-Fund aims to achieve a level of tracking error of the Receiving Sub-Fund and its index that will not normally exceed 1%.
Investment Policy	Indirect replication as further described in the Absorbed Sub-Fund prospectus. For additional information, please refer to Appendix I.	Direct replication as further described in the Receiving Sub-Fund prospectus. For additional information, please refer to Appendix I.

Appendix I to this notice provides additional information on the key similarities and differences between the Absorbed Sub-Fund and the Receiving Sub-Fund. Shareholders are also invited to carefully read the description of the Receiving Sub-Fund in its prospectus and relevant key information document (KID), which will be available on the following website: www.amundiETF.com.

The Merger of the Absorbed Sub-Fund into the Receiving Sub-Fund may have tax consequences for certain shareholders. Shareholders should consult their professional advisers about the consequences of this Merger on their individual tax position.

B. Conversion to cash

Prior to the Merger, all assets of the Absorbed Sub-Fund will be sold in order to only transfer cash to the Receiving Sub-Fund. Such an operation will take place right before the Merger, depending on the market conditions and in the best interest of the shareholders, so that the period between the conversion to cash and the subsequent reinvestment be as short as possible.

During such short period before the Merger, the Absorbed Sub-Fund may not be able to comply with its investment limits and investment objective. As a result, there is a risk that the performance of the Absorbed Sub-Fund may deviate from its expected performance for a short-term period before the Merger.

The Absorbed Sub-Fund will bear any transaction costs associated with such operation as and when incurred. Shareholders who remain in the Absorbed Sub-Fund during this period will therefore be subject to such costs.

C. Terms and Conditions of the Merger

On the Merger Effective Date, all the assets and liabilities of the Absorbed Sub-Fund will be transferred to the Receiving Sub-Fund and shareholders of the Absorbed Sub-Fund who have not requested the redemption or the conversion of their shares in the Absorbed Sub-Fund in accordance with this paragraph C. will automatically receive registered shares of the relevant share class in the Receiving Sub-Fund and, if applicable, a residual cash payment. As from that date, such shareholders will acquire rights as shareholders of the Receiving Sub-Fund and will thus participate in any increase or decrease in the net asset value of the Receiving Sub-Fund.

The Merger exchange ratio will be calculated on the Merger Effective Date by dividing the net asset value of the relevant share class of the Absorbed Sub-Fund dated as at the Last Valuation Date (as defined in Appendix III) by the net asset value per share of the corresponding share class of the Receiving Sub-Fund. If the Absorbed Sub-Fund share class and the corresponding Receiving Sub-Fund share class are denominated in different currencies, the exchange rate between such reference currencies as of the Last Valuation Date will apply.

In accordance with the above provision, the respective net asset value per share of the Merging Sub-Funds as at the Last Valuation Date will not necessarily be the same. Therefore, while the overall value of their holding should remain the same, shareholders in the Absorbed Sub-Fund may receive a different number of shares in the Receiving Sub-Fund than the number of shares they had previously held in the Absorbed Sub-Fund. Should the application of the exchange ratio result in an allocation of fractional shares in the Receiving Sub-Fund to a shareholder of the Absorbed Sub-Fund, the value of such holding following the application of the Merger exchange ratio will be rounded down to the nearest whole share and the value of the fractional entitlement will be distributed to the relevant shareholder by way of a residual cash payment in the base currency of the relevant share class of the Absorbed Sub-Fund. Residual cash payments, where applicable, will be made to shareholders of the Absorbed Sub-Fund as soon as reasonably practicable after the Merger Effective Date.

The Receiving Sub-Fund share class will be activated to effect the exchange with the corresponding share class of the Absorbed Sub-Fund.

Any accrued income in the Absorbed Sub-Fund will be included in the final net asset value of the Absorbed Sub-Fund and accounted for in the net asset value of the relevant share class of the Receiving Sub-Fund after the Merger Effective Date.

Appendix II to this notice provides a detailed comparison of the features of the share class of the Absorbed Sub-Fund and the corresponding share class of the Receiving Sub-Fund, which shareholders are invited to read carefully.

The costs of the Merger and the Second Merger will be fully supported by the management company of the Receiving Sub-Fund.

In order to optimise the operational implementation of the Merger, no subscription, conversion and/or redemption orders relating to shares of the Absorbed Sub-Fund on the primary market will be accepted after the “Cut-Off Point” (as such term is defined in Appendix III). Orders received on the primary market after the Cut-Off Point will be rejected.

The Receiving Sub-Fund is to be launched by effect of the Merger. No shares of the Receiving Sub-Fund will be issued before the Merger Effective Date. Any subscription, conversion or redemption request on the primary market received by the Receiving UCITS, the Receiving UCITS’ management company, the Distribution, Paying or Information Agent by the applicable cut-off time on the Merger Effective Date and the Second Merger Effective Date will be processed on the relevant first following day that is a Business Day.

Shareholders who do not agree with the terms and conditions of this Merger or the Second Merger (as further described below) have the right to redeem or convert their shares at any time free of charges (excluding redemption fees charged by the Absorbed Sub-Fund to cover divestment fees and except for the fees acquired by the Absorbed Sub-Fund to prevent dilution of shareholders investment) from the date of this notice until the “**Cut-Off Point**” as set out in Appendix III.

Nevertheless, placing an order on the secondary market will trigger costs over which the management company of the Absorbed Sub-Fund has no influence. Please note that shares that are purchased on the secondary market cannot generally be sold back directly to the Absorbed Sub-Fund. As a result, investors operating on the secondary market may incur intermediary and/or brokerage and/or transaction fees on their transactions, over which the management company of the Absorbed Sub-Fund has no influence. These investors will also trade at a price that reflects the existence of a bid-ask spread. Such investors are invited to contact their usual broker for further information on the brokerage fees that may apply to them and the bid-ask spreads they are likely to incur.

Such a redemption would be subject to the ordinary rules of taxation applicable to capital gains on the sale of transferable securities.

The Merger and the Second Merger (as further described below) will be binding on all the shareholders of the Absorbed Sub-Fund who have not exercised their right to request the redemption or the conversion of their shares within the timeframe set out above. The Absorbed Sub-Fund will cease to exist on the Merger Effective Date and its shares will be cancelled.

D. Second Merger

On the Second Merger Effective Date, shareholders of Lyxor MSCI Europe Mid Cap UCITS ETF who have participated to the Merger will now be shareholders of the Receiving Sub-Fund.

On such Second Merger Effective Date, all the assets and liabilities of Amundi MSCI Europe Low Size Factor, another sub-fund of Amundi Index Solutions (the “**Second Absorbed Sub-Fund**”) will be transferred to the Receiving Sub-Fund. Shareholders in the Receiving Sub-Fund should benefit from the increased investment capacity in the Receiving Sub-Fund and the economies of scale this Second Merger should allow to achieve.

Prior to the Second Merger, all assets of the Second Absorbed Sub-Fund be rebalanced to align with the Receiving Sub-Fund’s portfolio in view of the Merger so that no rebalancing of the Receiving Sub-Fund’s portfolio will be required before or after the Second Merger and no material impact on the portfolio of the Receiving Sub-Fund is expected.

Any accrued income in the Second Absorbed Sub-Fund will be included in the final net asset value of the Second Absorbed Sub-Fund and accounted for in the net asset value of the relevant share class of the Receiving Sub-Fund after the Second Merger Effective Date.

On implementation of the Second Merger, shareholders in the Receiving Sub-Fund will continue to hold the same shares in the Receiving Sub-Fund as before and there will be no change in the rights attached to such shares. The characteristics of the Receiving Sub-Fund will remain the same after the Second Merger Effective Date and the implementation of the Second Merger will not affect the fee structure of the Receiving Sub-Fund.

E. Documentation

The following documents are at the disposal of shareholders for inspection and for copies free of charge during normal business hours at the registered office of the Absorbed Sub-Fund:

A copy of the merger report prepared by the auditor in relation to the Second Merger is also at the disposal of shareholders for inspection and for copies free of charge during normal business hours at the registered office of the Receiving Sub-Fund.

APPENDIX I

Key Differences and Similarities between the Absorbed Sub-Fund and the Receiving Sub-Fund

The following table presents the main features and differences between the Absorbed and Receiving Sub-Funds. Appendix II provides a comparison of the features of the merging share class(es) of the Absorbed Sub-Fund and the corresponding receiving share class(es) of the Receiving Sub-Fund.

Unless stated otherwise, terms in this document shall have the same meaning as in the prospectus of the Original UCITS or the Receiving UCITS.

Information that crosses both columns is information that is the same for both sub-funds.

Investment Objective	The Absorbed Sub-Fund is a passively managed, index-tracking UCITS. The investment objective of the Absorbed Sub-Fund is to provide investors with a return that tracks the performance of the MSCI Total Return Net Europe Mid Cap Index (the "Index"). There is no guarantee that the investment objective of this Absorbed Sub-Fund can be realised. The expected Tracking Error under normal market conditions is up to 1%.	The objective of this Receiving Sub-Fund is to track the performance of MSCI Europe Small Cap ESG Broad CTB Select Index, and to minimize the tracking error between the net asset value of the Receiving Sub-Fund and the performance of the Index. The Receiving Sub-Fund aims to achieve a level of tracking error of the Receiving Sub-Fund and its index that will not normally exceed 1%.
Management Process	The Absorbed Sub-Fund seeks to attain the investment objective via indirect replication, in that it will acquire transferable securities and will also employ derivative techniques to compensate for any difference in performance between those securities acquired by the Absorbed Sub-Fund and the Index to be tracked. For example, the Absorbed Sub	The exposure to the Index will be achieved through a direct replication, mainly by making direct investments in transferable securities and/or other eligible assets representing the Index constituents. 	Fund will enter into swap agreements with one or more counterparties, which firstly neutralise the performance of the Securities Basket through the swaps in exchange for an agreed money market rate and secondly link the Absorbed Sub-Fund's assets to the performance of the Index in exchange for payment of an agreed money market rate. Alternatively, however, corresponding forward contracts or total return swaps may also be entered into, with the same economic objective of aligning the performance of the Absorbed Sub-Fund's assets with that of the Index. The total exposure of the Absorbed Sub-Fund to total return swaps is not expected to exceed 100% of the net asset value. This threshold may be exceeded in certain circumstances. In order to maintain exposure, the positions in futures contracts need to be "rolled over": the rolling over of futures contracts involves transferring futures contracts that are close to becoming due (and in all cases before they fall due) into futures contracts with a longer maturity. Shareholders are subject to a risk of losses due to the process of rolling over the futures contracts. Securities lending transactions may be concluded for the Absorbed Sub Fund.	and it is therefore not expected that the Receiving Sub-Fund will hold each and every underlying component of the Index at all times or hold them in the same proportion as their weightings in the Index. The Receiving Sub-Fund may also hold some securities which are not underlying components of the Index. The Receiving Sub-Fund integrates sustainability risks and takes into account principal adverse impacts of investments on sustainability factors in its investment process as outlined in more detail in section "Sustainable Investment" of this prospectus and will not hold any securities of companies involved in the production or sale of controversial weapons, or companies in breach of international conventions on Human or Labor Rights, or companies involved in controversial industries: tobacco, Thermal coal, nuclear weapons or unconventional oil & gas as defined in "Replication Methods".
