Investment Manager's Report

Market environment 2026:

Summary: Global equity markets capped a strong first half of 2026. Japan led Developed Markets, but Emerging Markets gained major momentum, outperforming Developed Markets in the second quarter. While large-cap IT and AI stocks carried the indices, small caps held onto their first-quarter outperformance. Similarly, value stocks topped growth stocks despite a notable ~20% rally in growth during the second quarter. Japan stocks were the leader of the Developed Markets. Government bonds experienced a sell-off as those higher commodity prices fuelled worries over inflation and potential interest rate rises.

Investment Manager's Report (continued)

Equity market

Emerging market (EM) equities are outperforming developed markets, benefiting greatly from hardware-focused semiconductor economies in Asia. This reflects a combination of more attractive valuations, improving earnings prospects and exposure to long-term structural growth themes, particularly AI. Historically, EM performance was often closely tied to commodity cycles, domestic politics, and global liquidity. But earnings growth is increasingly driven by global investment cycles, technology demand, and supply chain leadership. Within technology, for example, semiconductor companies now make up a quarter of emerging market equities by weight. Meanwhile, U.S. small and micro-cap stocks are outpacing large-cap tech as market participation broadens. This rally marks a shift from a prolonged period of underperformance, driven by improving earnings, relatively inexpensive valuations, and artificial intelligence integration. Small-cap consensus earnings growth has improved, with 2027 estimates currently outpacing those of the S&P 500 (accelerated earnings). Declining interest rates and fiscal stimulus have provided a tailwind for smaller, debt-sensitive firms. European equities are showing solid resilience, with the Euro Stoxx 50 up roughly 8.2% through the first half of 2026, nearly matching the S&P 500's 9.3% gain. However, regional markets are navigating a complex environment characterized by eurozone economic contractions, shifting monetary policy, and persistent geopolitical friction. Basic resources (+18%), telecommunications (+15%), energy (+13%), and utilities (+12%) have been the strongest performers, while media (-11%) and travel/leisure (-4%) lag.

Investment Manager's Report (continued)

Fixed income

Global fixed-income performance in 2026 is seeing steady but mixed returns, characterized by strong corporate credit and stabilizing yields. As central banks normalize policy, the Bloomberg Global Aggregate Index has shown modest single-digit returns, while emerging market debt continues to outperform amidst improving domestic liquidity. Emerging market (EM) debt is experiencing strong capital flows. Driven by local central bank easing and steady macroeconomic adjustments, EMs are outpacing developed sovereign debt indexes. Investment-grade corporate bond performance remains solid as balance sheets have remained healthy and refinancing risks are generally manageable. Corporate credit spreads are historically tight, though higher interest rates have marginally increased pressure on debt-heavy issuers.

SEMI-ANNUAL REPORT AND FINANCIAL STATEMENTS
For the period from 1 January 2026 to 30 June 2026

Investment Manager's Report (continued)

Government bonds have delivered modest but volatile performance in 2026, pressured by persistent geopolitical tensions, sticky inflation, and record-high government debt issuance. Global sovereign bonds have posted slight fluctuations, with the Morningstar Eurozone Treasury Bond Index down about 0.6% and US Treasuries declining by roughly 0.2% over early-year trading.

AMUNDI ETF ICAV
SEMI-ANNUAL REPORT AND FINANCIAL STATEMENTS
For the period from 1 January 2026 to 30 June 2026

Notes to the Financial Statements

1. The ICAV

Amundi ETF ICAV (the “ICAV”), was authorised on 14 April 2022, as an umbrella fund with segregated liability between sub-funds registered as an Irish Collective Asset-management Vehicle (“ICAV”) pursuant to the Irish Collective Asset-management Vehicles Act 2015 (as amended) (the “ICAV Act 2015”) with registration number C461194. The ICAV was authorised as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended), (the “UCITS Regulations”) and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the “Central Bank UCITS Regulations”) by the Central Bank on 14 April 2022.

The investment objective of a sub-fund may be to track or replicate the performance of a particular index (or indices) or strategy through (i) direct investment in some or all of the constituents of the relevant Index or strategy (assuming that those constituents are eligible assets); (ii) direct investments in eligible assets that provide indirect exposure to the relevant index or strategy (or the constituents thereof); (iii) financial derivative instruments (FDI) that provide indirect exposure to the relevant Index or the constituents thereof; (iv) other eligible access instruments, including Depositary Receipts; or (v) a combination of (i) to (iv) above.

As at 30 June 2026, the ICAV has 47 sub-funds in operation (31 December 2025: 42 sub-funds).

The ICAV appointed Amundi Ireland Limited as Management Company (the “Management Company”) and Amundi Ireland Limited appointed Amundi Asset Management (the “Investment Manager”) to act as Investment Manager for all of the sub-funds. The administration of the ICAV has been delegated to HSBC Securities Services (Ireland) DAC (the “Administrator”). The ICAV has appointed HSBC Continental Europe as the depositary (the “Depositary”) responsible for providing depositary services to the ICAV for the purposes of and in compliance with the UCITS Regulations pursuant to the Depositary Agreement.

2. Basis of presentation

The financial statements of the ICAV and its sub-funds are prepared in accordance with International Financial Reporting Standards (“IFRS”), issued by the International Accounting Standards Board (“IASB”), as adopted by the European Union and the ICAV Act 2015 and the UCITS Regulations. These financial statements are prepared on a historical cost basis except for financial assets and financial liabilities at fair value through profit or loss (“FVTPL”) (including financial derivative instruments) which have been measured at fair value.

The financial statements have been prepared on the going concern basis and are based upon the 30 June 2025 Net Asset Value (the “NAV”), as this was the final business day of the year.

(i) Functional and presentation currency

The majority of each sub-fund’s investments and transactions are denominated in either Euro or US Dollar. Similarly, subscriptions and redemptions are determined based on the net asset value, and received and paid in Euro or US Dollar. The functional currency of the sub-funds, which is in each case is the Euro or US Dollar, is shown in the Statement of financial position of each sub-fund. The ICAV has also adopted these functional currencies as the presentation currency of each sub-fund.

AMUNDI ETF ICAV
SEMI-ANNUAL REPORT AND FINANCIAL STATEMENTS
For the period from 1 January 2026 to 30 June 2026

Notes to the Financial Statements (continued)

2. Basis of presentation (continued)

(ii) Translation and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the Statement of financial position date. Foreign exchange gains and losses arising from translation are included in the Statement of comprehensive income.

(iii) Use of estimates and judgements

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates and also requires management to exercise its judgement in the process of applying the ICAV's accounting policies.

3. Material accounting policies

(a) New standards, amendments and interpretations effective for future reporting financial periods that have not been early adopted

IFRS 18 Presentation and Disclosure in Financial Statements.

IFRS 18 will replace IAS 1 Presentation of Financial Statements and applies for annual reporting periods beginning on or after 1 January 2027. The new accounting standard introduces the following key new requirements.

- Entities are required to classify all income and expenses into five categories in the statement of profit or loss, namely the operating, investing, financing, discontinued operations and income tax categories. Entities are also required to present a newly-defined operating profit subtotal.
- Entities' net profit will not change as a result of applying IFRS 18.
- Management-defined performance measures ("MPMs") are disclosed in a single note in the financial statements.
- Enhanced guidance is provided on how to group information in the financial statements.

In addition, all entities are required to use the operating profit subtotal as the starting point for the statement of cash flows when presenting operating cash flows under the indirect method. The Company is still in the process of assessing the impact of the new accounting standard, particularly with respect to the structure of the Company's statement of profit or loss, the statement of cash flows and the additional disclosures required for MPMs. The Company is also assessing the impact on how information is grouped in the Financial Statements, including for items currently labelled as 'other'.

The following new and amended accounting standards are not expected to have a material impact on the Company's Financial Statements:

- Non-current Liabilities with Covenants (Amendments to IAS 1) and Classification of Liabilities as Current or Non-current (Amendments to IAS 1)
- Lack of Exchangeability (Amendments to IAS 21)
- Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7).

AMUNDI ETF ICAV
SEMI-ANNUAL REPORT AND FINANCIAL STATEMENTS
For the period from 1 January 2026 to 30 June 2026

Notes to the financial statements (continued)

4. Fees and expenses

The ICAV has a fee structure where, in respect of each of the sub-funds, all of the fees and expenses (except for taxes on sub-funds, brokerage and bank charges on business transactions, costs of liquidation or winding up the ICAV or terminating any sub-fund; operational costs and fees associated with efficient portfolio management that are paid separately out of the assets of the relevant sub-funds) are paid as one single fee. This is referred to as the “Total Expense Ratio” or “TER” in the Prospectus and is being disclosed in these financial statements as the “Management fee”.

(a) Management fee

The Management Company is entitled to a management fee paid out of the assets of each sub-fund/share class, accrued on a daily basis at a rate ranging from 0.04% to 0.10% and paid quarterly in arrears. The Management Company will pay out of its management fee, the fees of the Investment Manager and such other service providers as may be determined by the Management Company from time to time, including distributor and sub-distributors. The Management Company may from time to time, at its sole discretion and out of its own resources, decide to rebate to shareholders part or all of its management fee.

The Management Company is also entitled to an administration fee paid out of the assets of each sub-fund/share class, accrued on a daily basis at a rate ranging from 0.03% to 0.10% and paid monthly in arrears. The Management Company will pay out of the administration fee, the following charges and expenses of the ICAV.

- fees of the Depositary, Administrator and the ICAV's secretary;
- government, regulatory, registration, listing, local agents and representatives and cross-border marketing expenses;
- costs of providing information to shareholders, such as the costs of creating, translating, printing and distributing shareholder reports, prospectuses, KIIDs and notices to shareholders;
- all fees and expenses incurred in connection with the payment of redemption proceeds and dividends and with the convening and holding of shareholders' meetings;
- any costs related to the information to shareholders including costs related to the publication of prices of shares in the financial press and the production of information material;
- all other costs associated with operation and distribution, including expenses incurred by the Management Company, Investment Manager, Depositary, Administrator and all service providers in the course of discharging their responsibilities to the ICAV;
- fees of professional services firms, including the auditors, the ICAV's secretary and legal advisers; and
- director fees and expenses to be paid to independent board members for their services on the board of the ICAV.

AMUNDI ETF ICAV
SEMI-ANNUAL REPORT AND FINANCIAL STATEMENTS
For the period from 1 January 2026 to 30 June 2026

Notes to the financial statements (continued)

4. Fees and expenses (continued)

(a) Management fee (continued)

The fees paid to the Management Company for the financial period amounted to EUR 39,269,905 (30 June 2025: EUR 31,083,166) of which EUR 7,491,725 (31 December 2025: EUR 6,432,559) was payable at the financial period end.

Fees paid to the administrator for the financial period amounted to EUR 932,558 of which EUR 932,558 was payable at the financial period end. Fees paid to the Depositary for the financial period amounted to EUR 2,311,482 of which EUR 2,311,482 was payable at the financial period end.

(b) Directors' Fee

Unless and until otherwise determined from time to time by the ICAV in a general meeting, the ordinary remuneration of each Director shall be determined from time to time by resolution of the Directors. Any Director who holds any executive office (including for this purpose the office of chairman or deputy chairman), or who otherwise performs services which in the opinion of the Directors are outside the scope of the ordinary duties of a Director, may be paid such extra remuneration by way of salary, commission or otherwise as the Directors may determine. The Directors may be paid all travelling, hotel and other out-of-pocket expenses properly incurred by them in connection with their attendance at meetings of the Directors or general meetings or separate meetings of the holders of any class of the ICAV or otherwise in connection with the discharge of their duties.

The Directors' fees which are paid out of the Administration fee for the six-month period ended 30 June 2026 amounted to EUR 25,000 (30 June 2025: EUR 20,000).

(c) Setup Costs

The cost of establishing the ICAV and the initial sub-funds and the expenses of the initial offer of shares in the sub-funds, the preparation and printing of the initial prospectus, marketing costs and the fees of all professionals relating to it will be borne by the Management Company.

(d) Transaction Costs

The table below provides an analysis of the total transaction costs on the purchase and sale of transferable securities such as equities and derivative instruments for each of the ICAV's sub-funds.

5. Derivative Contracts

Futures contracts

Futures contracts are commitments either to purchase or sell a specific financial instrument, currency, commodity or an index at a specified future date for a specified price and may be settled in cash or another financial asset. Futures are standardised exchange-traded contracts. Initial margin requirements for futures are met in cash or other instruments, and changes in the future contract values are settled daily through cash margin accounts.

As at 30 June 2026, future contracts were held by Societe Generale SA. Please refer to the Schedule of Investments for more details.

Forward contracts

Forward contracts are contractual agreements to buy or sell a specified financial instrument at a specific price and date in the future. Forwards are customised contracts transacted in the OTC market. The ICAV may enter into forward contracts to manage the currency risk arising from the ICAV's investment or anticipated investment in investments denominated in foreign currencies. Forward contracts may be used for hedging and currency management of both local and foreign currencies.

For the period ended 30 June 2026, the forward contracts were held by Goldman Sachs Bank, Royal Bank of Canada, BNP Paribas, Societe Generale, Bank of America, JP Morgan Chase Bank, Morgan Stanley, Citi Bank, State Street, HSBC, Credit Agricole Corporate and Investments, Barclays, Standard Chartered, Banco Bilbao Vizcaya Argentaria, Natixis CIB, Nomura Securities International, UBS Group AG (2025 December: Goldman Sachs Bank, Royal Bank of Canada, BNP Paribas, Societe Generale, Bank of America, JP Morgan Chase Bank, Morgan Stanley, Citi Bank, State Street).

SEMI-ANNUAL REPORT AND FINANCIAL STATEMENTS
For the period from 1 January 2026 to 30 June 2026

Notes to the financial statements (continued)

6. Fair value of assets and liabilities

IFRS 13- Fair Value Measurement, establishes a three-tier fair value hierarchy that prioritises the inputs to valuation techniques to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and lowest priority to unobservable inputs (Level 3 measurement). Investments measured and reported at fair value are classified and disclosed in one of the following fair value hierarchy levels based on the significance of the inputs used in measuring their fair value:

- Level 1- Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2- Quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly. Fair value is determined through the use of models or other valuation methodologies;
- Level 3- Prices or valuations that require inputs that are both significant to the fair value measurement and are unobservable. Unobservable inputs are developed based on the best information available in the circumstances and reflect the sub-funds' own assumptions about how market participants would be expected to value the asset or liability.

An investment is always categorised as Level 1, 2 or 3 in its entirety. In certain cases, the fair value measurement for an investment may use a number of different inputs that fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The ICAV's financial instruments are measured at fair value and it is usually possible to determine their fair values within a reasonable range of estimates. Fair value estimates are made at a specific point in time, based on market conditions and information about the financial instrument. These estimates are subjective in nature and involve uncertainties that may require significant judgement (e.g., interest rates, volatility, estimated cash flows etc.) Actual results could differ from these estimates.

AMUNDI ETF ICAV
SEMI-ANNUAL REPORT AND FINANCIAL STATEMENTS
For the period from 1 January 2026 to 30 June 2026

Notes to the financial statements (continued)

6. Fair value of assets and liabilities (continued)

The financial instruments as at 30 June 2026 and 31 December 2025 were classified as follows:

Equities	Level 1
Futures contracts	Level 1
Fixed income	Level 1
Forward contracts	Level 2
Warrants	Level 2

Cash and cash equivalents and due to/from broker are classified as level 1. All other assets and liabilities other than financial assets above have been classified as level 2.

The following table presents the fair value hierarchy of the ICAV's financial assets and liabilities measured at 30 June 2026.

AMUNDI ETF ICAV
SEMI-ANNUAL REPORT AND FINANCIAL STATEMENTS
For the period from 1 January 2026 to 30 June 2026

Notes to the financial statements (continued)

8. Share Capital and Redeemable Participating Shares

The authorised share capital of the ICAV is 2 subscriber shares of €1 each and 1,000,000,000,000,000 Shares of no-par value initially designated as unclassified shares. The unclassified shares are available for issue as shares. There are no rights of pre-emption attaching to the shares in the ICAV.

As at period end, neither the Directors nor any person closely associated have any beneficial interest in the share capital of the ICAV or any options in respect of such capital. The Directors are generally and unconditionally authorised to exercise all powers of the ICAV to allot relevant securities up to an amount equal to the authorised but yet unissued share capital of the ICAV. The ICAV may from time to time by ordinary resolution increase the share capital by such amount and/or number as the resolution may prescribe.

The movement in the number of Redeemable Participating Shares during the financial period from 1 January 2026 to 30 June 2026 is as follows:

Share Class	At beginning of the period (units)	Issued during the financial period (units)	Redeemed during the financial period (units)	At the end of the financial period (units)

Notes to the financial statements (continued)

9. Distributions to redeemable participating shareholders

The Directors decide the dividend policy and arrangements relating to each sub-fund. Under the instrument of incorporation, the Directors are entitled to declare dividends out of net income (i.e. income less expenses) and/or capital. The ICAV will be obliged and entitled to deduct an amount in respect of Irish taxation from any dividend payable to a shareholder in any sub-fund who is or is deemed to be a taxable Irish person and pay such sum to the Irish revenue commissioners. For each distributing share class, dividends are paid in the currency of such share class or in such other currency as may be determined by the Directors.

The following are the distributions for the financial period ended 30 June 2026.

Share Class	Dividend Ex-Date	Dividend Rate per Share

10. Related Parties

The Directors and Investment Manager are related parties to the ICAV.

Fees payable to the Investment Manager and the amounts due at the period-end is included in the accrued expenses on the Statement of Financial Position. The fees earned by the Investment Manager is included in the Management fees in the Statement of Comprehensive Income. The Directors will seek to ensure any conflict of interest of which they are aware is resolved fairly.

The Directors had no interest, direct or indirect, in any assets which have been or are proposed to be acquired or disposed of by, or issued to, the ICAV and no Director is materially interested in any contract or arrangement subsisting at the date hereof which is unusual in its nature and conditions or significant in relation to the business of the ICAV. Directors' fee paid during the year are disclosed in note 4 (c).

Graham Fox and Mehdi Balafref are employees of the Investment Manager.

12. Significant events during the financial period

Amundi MSCI India IMI UCITS ETF sub-fund was launched on 29 January 2026.

Amundi Core NASDAQ-100 UCITS ETF sub-fund was launched on 3 March 2026.

Amundi S&P 500 Financials UCITS ETF sub-fund was launched on 23 April 2026.

Amundi FTSE All World GDP-Weighted UCITS ETF sub-fund was launched on 19 May 2026.

Amundi S&P All World High Dividend Yield UCITS ETF sub-fund was launched on 9 June 2026.

The escalation of the conflict between the US, Iran and Israel has caused significant volatility in international markets. There is significant uncertainty around the impact of the situation on international economies and, as such, the ICAV is actively monitoring the extent of the impact to its operations, financial accounting and reporting. The eventual impact on the global economy and markets will largely depend on the scale and duration of the conflict. While the performance of the ICAV has not been significantly impacted by the conflict, the directors continue to monitor this situation.

There were no other significant events during the financial period to report.

13. Significant events post the financial period

An updated prospectus was issued on 8 July 2026.

There are no other significant events post period end that are required to be disclosed in these Financial Statements.

AMUNDI ETF ICAV

Securities financial transactions regulations

The following disclosure follows the requirements of EU Securities Financing Transactions Regulation (“SFTR”) which came into effect on 13 January 2017.

A Securities Financing Transaction (“SFT”) is defined as per Article 3(11) of the SFTR as:

- A repurchase transaction;
- Securities or commodities lending and securities or commodities borrowing;
- A buy-sell back transaction or sell-buy back transaction; or
- A margin lending transaction.
