## What is this product?

**Type:** Shares of a Sub-Fund of AMUNDI ETF ICAV, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as an ICAV.

**Term:** The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

**Objectives:** The Sub-Fund is passively managed. The objective of the Sub-Fund is to track the performance of the S&P 500 Scored & Screened+ Index (USD) NTR (the "Index"). The anticipated level of the tracking error, under normal market conditions, is indicated in the prospectus of the Sub-Fund.

S&P 500 Scored & Screened+ Index (USD) NTR is a broad-based, market-cap-weighted equity index that measures the performance of securities meeting sustainability criteria, while maintaining similar overall industry group weight as the S&P 500 Index (the "Parent Index"). The Parent Index is an equity index representative of the leading securities traded in the USA. The Index is a net total return index, meaning that dividends net of tax paid by the index constituents are included in the Index return.

More information about the composition of the Index and its operating rules are available in the prospectus and at [spdji.com](http://spdji.com).

The Index value is available via Bloomberg (SPXESAUN).

The exposure to the Index will be achieved through a Direct Replication, mainly by making direct investments in transferable securities and/or other eligible assets representing the Index constituents in a proportion extremely close to their proportion in the Index. The Investment Manager will be able to use derivatives in order to deal with inflows and outflows and which relate to the Index or constituents of the Index for investment and/or efficient portfolio management. In order to generate additional income to offset its costs, the Sub-Fund may also enter into securities lending operations.

In order to hedge the currency of the share against the currency of the index, the Fund uses a hedging strategy which reduces the impact of changes between the currency of the Index and the currency of the share class.

**Intended Retail Investor:** This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period with the ability to bear losses up to the amount invested.

**Redemption and Dealing:** The Sub-Fund's shares are listed and traded on one or more stock exchanges. In normal circumstances, you may deal in shares during the trading hours of the stock exchanges. Only authorised participants (e.g., selected financial institutions) may deal in shares directly with the Sub-Fund on the primary market. Further details are provided in the AMUNDI ETF ICAV prospectus.

**Distribution policy:** As this is a non-distributing share class, investment income is reinvested. the accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

**More Information:** You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Ireland Limited at AMUNDI IRELAND LIMITED, One George's Quay Plaza, George's Quay, Dublin 2, Ireland.

The Net Asset Value of the Sub-Fund is available on [www.amundi.ie](http://www.amundi.ie)

**Depositary:** HSBC Continental Europe.
