SECOND ADDENDUM TO THE PROSPECTUS

4 March 2026

This Addendum contains specific information in relation to the following sub-fund of the Amundi ETF ICAV (the **ICAV**):

1. AMUNDI S&P ALL WORLD HIGH DIVIDEND YIELD UCITS ETF (the Sub-Fund)

This Addendum is supplemental to, forms part of and should be read in conjunction with, the prospectus for ICAV dated 23 February 2026 (the Prospectus).

The Directors of the ICAV whose names appear in the section entitled "Directors of the ICAV" of the Prospectus accept responsibility for the information contained in this Addendum. To the best of the knowledge and belief of the Directors, who have taken all reasonable care to ensure such is the case, the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

Words and expressions defined in the Prospectus shall, unless the context otherwise requires, have the same meaning when used in this Addendum. For the purposes of interpretation, in the event of any conflict between this Addendum and the Prospectus, any such conflict shall be resolved in favour of this Addendum.

PURPOSE

The purpose of this Addendum is to update the Prospectus to include the description of the Sub-Fund in the section entitled "Sub-Fund Descriptions" and to make certain other related amendments to the Prospectus.

Amundi S&P All World High Dividend Yield UCITS ETF

Investment Objective and Investment Policy

Sub-Fund: Amundi S&P All World High Dividend Yield UCITS ETF (the "Sub-Fund")

Index: S&P Global Dividend 100 Index (the "Index")

Investment Objective

To track the performance of the Index.

Index Description

- General description of the Index

The S&P Global Dividend 100 Index is designed to measure the performance of high-dividend-yielding stocks in the Global LargeMidCap universe with a record of consistently paying dividends, selected for fundamental strength relative to their peers, based on financial ratios.

The Index is a net total return index, meaning that dividends net of tax paid by the index constituents are included in the Index return.

- Index currency: US Dollar (USD)
- Index Composition

The Index is composed of approximately 100 high-dividend-yielding stocks in the Global LargeMidCap universe (which is composed of stocks representing the top 85% of float-adjusted market cap in each developed and emerging country), with a record of consistently paying dividends, selected for fundamental strength relative to their peers, based on financial ratios.

The Index constituents are capped per the Index provider's methodology to ensure diversification.

The constituents may occasionally be rebalanced more often, on a monthly basis or a needed basis, than the Index rebalance frequency when, for instance, either the largest Index weight exceeds 35% or the second largest Index weight exceeds 20%.

- Index Revision

The Index rebalancing is planned quarterly.

- Index Publication

The Index is calculated and published by S&P Dow Jones.

The Index is calculated using the official closing prices of stock exchanges on which the Index components are traded.

The Index value is available via Bloomberg. At the date of the Prospectus, the relevant ticker is: SPGDV1UN

The performance tracked is the closing price of the Index.

The S&P Dow Jones index methodology, composition, rebalancing rules and additional information concerning the Index underlying components are available on <https://www.spglobal.com/spdji/en/supplemental-data/europe/>

Management Process

The Sub-Fund is managed according to a passive approach and the exposure to the Index will be achieved through a direct replication, mainly by making direct investments in transferable securities and/or other eligible assets as further described below representing the Index constituents in a proportion extremely close to their proportion in the Index as further described in the section entitled "Replication Methods for Passively Managed Sub-Funds" of this Prospectus. With the exception of permitted investments in OTC option and swap financial derivative instruments (as further described in "Techniques and instruments on securities and Derivatives" below) and cash, the Sub-Fund's investments will be equity and Equity Linked Instruments which will be listed and traded on Regulated Markets.

Please refer to the sections of the Prospectus entitled "Risk Factors – Sustainable Investment Risk", "Replication Methods for Passively Managed Sub-Funds" and "Impact of Sustainability Risk on a Sub-Fund's returns" within the section headed "Sustainable Investments" for further information on how the Management Company and Investment Manager integrate consideration of Sustainability Risks and their likely impact on the Fund, for example, by excluding the securities of companies involved in the production or sale of controversial weapons. The Sub-Fund takes into account principal adverse impacts of investment on sustainability factors in its investment process as outlined in more detail in section "Sustainable Investing" of the Prospectus.

The Sub-Fund does not promote environmental or social characteristics and does not have sustainable investment as its objective. Therefore, the Sub-Fund discloses under Article 6 of SFDR.

Tracking Error

The tracking error measures the volatility of the difference between the return of the Sub-Fund and the return of the Index. In normal market conditions, it is anticipated that the Sub-Fund will track the performance of the Index with a tracking error of up to 1%.

Techniques and instruments on securities and Derivatives

In order to deal with inflows and outflows and also with some equity local market specificities (including market access, liquidity or local tax issues); the Investment Manager may invest in futures, options and swaps which are preferable to equities which are comprised in the Index or are otherwise consistent with the Sub-Fund's Investment Objective. In this instance, the Sub-Fund may hold deposits while maintaining full exposure to the Index.

The Sub-Fund may enter into any efficient portfolio management techniques and instruments relating to transferable securities and money market instruments, such as securities lending arrangements and reverse repurchase and repurchase agreements for the purposes of efficient portfolio management as described and in compliance with the sections entitled "Techniques and Instruments on Securities Financing Transactions" and "Replication Methods for Passively Managed Sub-Funds" of this Prospectus. In particular, such techniques and instruments may be used in order to generate additional income for the Sub-Fund.

The maximum and expected proportions of the Sub-Fund's assets that may be subject to SFTs are disclosed in the table entitled "Use of Securities Financing Transactions and Total Return Swaps".

Base Currency: US Dollar

Investment Manager: Amundi Asset Management
